Hi Jay,

Just an update, the report issue was cleared up and your case has proceeded to upper management for a determination (with the recommendation as we discussed). This process has been taking longer than usual, so it will likely be a few weeks before we hear back from them. In the meantime, I will be in touch about suspensions.

Best,
Bethany

Hi Jay,

Yes, the case still needs to be suspended until regulation is finalized. I have entered another 15-day suspension to extend the review period through 7/2/2018.

Also, the proposal was fine. Though, I am still working with the review team to clear up a slight inconsistency in our reports, so your case has not yet been able to proceed to the next step until that gets cleared up. I will let you know if something comes up. Feel free to call if you have any questions.

Best,
Bethany

Do we still need to request suspensions at this point, I think this is the day we should? Was your proposal well received from the review board concerning our PMN?

Thank you,

Jay Bartley
